

Case Presenter

Did the case give the group something to be wrong about, and did the data come out on schedule?

FILLED IN BY:

☐ Self

☐ Facilitator

Date

	NOT YET	DID IT	DID IT WELL
Case selection Did it well: the case forced a real diagnostic decision the group could plausibly get wrong. Not yet: one answer, no branch point.	☐	☐	☐
Data discipline Did it well: held the second block even when the room went quiet. Not yet: narrated front to back, or volunteered labs early.	☐	☐	☐
The hook Did it well: dropped the group into the decisive moment and then stopped talking. Not yet: opened with demographics and past history.	☐	☐	☐
Neutrality Did it well: let a wrong answer stand until the data settled it. Not yet: tone or pacing gave it away, or corrected a discussant.	☐	☐	☐
The reveal Did it well: named the reasoning error, not just the diagnosis. Not yet: stated the answer and stopped.	☐	☐	☐
ONE THING TO KEEP DOING			
ONE THING TO DO DIFFERENTLY NEXT TIME			

The hardest item here is neutrality. Most presenters give the answer away with pacing long before they say it.

Whiteboard Scribe

Did the board show the group's thinking, or the scribe's?

FILLED IN BY: ☐ Self ☐ Facilitator Date

	NOT YET	DID IT	DID IT WELL
Board ready before 0:00 Did it well: zones laid in, header filled, link posted in chat before anyone joined. Not yet: built the board while the case was running.	☐	☐	☐
Capture fidelity Did it well: wrote what was actually said, and asked for sharpening when phrasing was vague. Not yet: paraphrased into tidier language.	☐	☐	☐
Strike discipline Did it well: struck items the moment they were refuted, with the refuting feature written beside them. Not yet: struck without a reason, or erased.	☐	☐	☐
Stayed out of the argument Did it well: captured without contributing diagnoses. Not yet: added items nobody said.	☐	☐	☐
Export and post Did it well: PNG exported at 0:24 and posted before leaving the call. Not yet: posted late or not at all.	☐	☐	☐

ONE THING TO KEEP DOING

ONE THING TO DO DIFFERENTLY NEXT TIME

A board with no red on it usually means the scribe was writing rather than listening for refutation.

PGY-1 Discussant

The first pass. Did they commit to a short, defensible list?

FILLED IN BY: ☐ Self ☐ Facilitator or senior Date _____

BLOCK: ☐ Jul-Sep ☐ Oct-Dec ☐ Jan-Mar ☐ Apr-Jun

	NOT YET	DID IT	DID IT WELL
Problem representation Did it well: one sentence with age, tempo and the key features. Not yet: a list of findings rather than a summary.	☐	☐	☐
List length and specificity Did it well: three or four entity-level diagnoses, each with a reason. Not yet: categories offered as items, or a list longer than five.	☐	☐	☐
The can't-miss Did it well: named as such, with why it earns the label. Not yet: not named, or named without a rationale.	☐	☐	☐
The data request Did it well: asked for one thing and said what each result would mean. Not yet: asked for everything, or nothing.	☐	☐	☐
This block's added ask Jul-Sep: nothing extra. Oct-Dec: the discriminating test. Jan-Mar: the framework, named first. Apr-Jun: explicit pruning and the trigger. Score only the ask that has been introduced.	☐	☐	☐

ONE THING TO KEEP DOING

ONE THING TO DO DIFFERENTLY NEXT TIME

If the list got longer after the last escalation, that is covering rather than committing — note it and step the ask back one block.

Senior Discussant

The second pass. Did they turn the intern's list into an argument?

FILLED IN BY: ☐ Self ☐ Facilitator or faculty Date _____

	NOT YET	DID IT	DID IT WELL
Framework before the list Did it well: named an organising scheme, then reorganised the intern's items into it. Not yet: produced a better list instead of a structure.	☐	☐	☐
Pruning with stated reasons Did it well: named the feature that argues against each item as it was struck. Not yet: ruled things out silently.	☐	☐	☐
Illness script Did it well: contrasted what the disease usually looks like against what this patient looks like. Not yet: no comparison offered.	☐	☐	☐
The discriminating test Did it well: one test named, with what a positive and a negative would each mean. Not yet: ordered a panel.	☐	☐	☐
Confidence, trigger and bias Did it well: a working diagnosis with a confidence level, an explicit falsifying condition, and a named bias. Not yet: a diagnosis with none of the three.	☐	☐	☐

ONE THING TO KEEP DOING

ONE THING TO DO DIFFERENTLY NEXT TIME

Handing the intern a question rather than a correction is the senior skill most worth reinforcing here.

Faculty

A self-check. Did the timing of your contribution help or replace the work?

FILLED IN BY:

☐ Self

☐ A colleague, if you want a second read

Date

	NOT YET	DID IT	DID IT WELL
Held until 0:19 Did it well: stayed off the discussion until the room had already done the reasoning. Not yet: entered during a pass.	☐	☐	☐
Added what residents could not Did it well: mechanism, evidence, or a real-practice caveat. Not yet: restated what had already been said.	☐	☐	☐
Redirected rather than answered Did it well: sent questions aimed at learners back to the group. Not yet: answered a question posed to a resident.	☐	☐	☐
One pearl, sixty seconds Did it well: one point, briefly. Not yet: a teaching session inside a 25-minute report.	☐	☐	☐
Closed on the objective Did it well: two-sentence synthesis tied to the objective that was read at 0:00. Not yet: a new topic in the last three minutes.	☐	☐	☐
ONE THING TO KEEP DOING			
ONE THING TO DO DIFFERENTLY NEXT TIME			

If you have less to add in June than you did in October, the format is working — that is the intended trajectory, not a problem.

Facilitator

You are not a discussant. Did the clock hold and did the climate hold?

FILLED IN BY:

☐ Self

☐ Self or chief

Date

	NOT YET	DID IT	DID IT WELL
Roles drawn and posted ahead Did it well: drawn a week out, one-liner sent 24 hours ahead, faculty primed. Not yet: assigned on the morning of.	☐	☐	☐
Time called out loud Did it well: 0:07, 0:16 and 0:22 called aloud. Not yet: the handoffs drifted and the session ran long.	☐	☐	☐
Protected the first pass Did it well: nobody spoke over the intern for four minutes. Not yet: allowed a rescue or a correction mid-pass.	☐	☐	☐
Ran the room Did it well: called on people by name, read chat aloud, cut tangents back to the case. Not yet: the same three voices carried the hour.	☐	☐	☐
Ended on time Did it well: closed at 0:25 with the board exported. Not yet: ran over, or introduced new content at the end.	☐	☐	☐
ONE THING TO KEEP DOING			
ONE THING TO DO DIFFERENTLY NEXT TIME			

Escalation of the intern's ask belongs in the pre-report email, never on camera. Note here if that slipped.
