

Strike it out

Cross each one off as it happens. What is left standing at 0:25 is the feedback — no debrief required.

THE PRESENTATION

- ☐ De-identified — no MRN, no dates, no burned-in IDs
- ☐ Eight slides or fewer
- ☐ One objective, read aloud at 0:00
- ☐ Hook first, not demographics
- ☐ History and exam in one block — no labs yet
- ☐ Stopped talking and let the silence run
- ☐ Reveal named what was missed, and why

THE REASONING

- ☐ Problem representation in one sentence
- ☐ Three to four diagnoses, each with a reason
- ☐ The can't-miss, named as such
- ☐ First pass finished uninterrupted
- ☐ A framework named before the list
- ☐ Something struck off, with the reason beside it
- ☐ The discriminating test named
- ☐ Confidence stated, and what would change my mind
- ☐ Board exported and posted

IT DID NOT HIT THE STANDARD IF ANY OF THESE ARE TRUE

- ☒ The diagnosis came out before the second pass finished
- ☒ Faculty entered the discussion before 0:19
- ☒ We ran past 25 minutes
- ☒ Nothing on the board ever got crossed off

Struck _____ of 16 Date _____ Site _____ Presenter _____

One per session. If the same box survives four weeks running, that is the thing to teach.
